Subject : DEKOMTE FABRIC EXPANSION JOINTS

We confirm that DEKOMTE Fabric Expansion Joints Installed on GE Units at Power Plant #9 in Riyadh (operated by crude oil at the beginning of project) have performed well. The Fabric Expansion Joints have demonstrated that they are produced to high standards of quality and functional reliability.

DEKOMTE has proved to be an experienced partner and we look forward to continued future co-operation in the field of expansion joints technology.

Yours sincerely

Mohamed Al-kamali
Technical support Acting Manager, PP9
